Skills

Professional Skills

ReactJs
React-Redux-toolkit
JavaScript
Tailwind CSS
C++
Data Structures and Algorithms
Object Oriented Programming

Soft Skills

Communication
Teamwork
Curious Learner
Active Listening
Time Management
Leadership

2nd-year B.Tech student at NIT Kurukshetra, building skills in Frontend Development with experience in Reactjs and React-Redux Toolkit, and a strong foundation in Data Structures and Algorithms, having solved 300+ problems on various coding platforms like LeetCode and GeeksforGeeks etc. Developed some projects using Reactjs. Seeking a frontend developer role to apply and grow my skills.

Projects

- YouTube Clone || Link
  - Optimized search functionality with Debouncing and caching for faster performance.
  - Used multiple APIs for videos, search suggestions, and video recommendations.
  - Implemented an n-level nested comments section for enhanced user interaction.
- Weather App || Link
  - Shows temperature, wind speed, and weather icons representing current conditions of current user location.
  - A search feature allowing users to look up weather information for various locations.
- To-do List || Link
  - A user-friendly task manager featuring options to add, delete, and edit daily tasks.
  - Data persists even after a page refresh, leveraging local storage for task management.

Competitions

- SIH College Hackathon:
  - Selected for the Smart India Hackathon (SIH)'2024 after clearing the college-level hackathon.
  - Collaborated with my team to develop a job-searching platform during the hackathon.
- Excalibur Hackathon:
  - Reached to the pre-final round in the Excalibur hackathon, organized during the technical fest of our college while developing a ride-sharing platform with my team .
